Jerami Singleton

Summary

Video Editor operating at scale across sports and education, delivering 1,000+ multi-sport athlete highlight reels and hundreds of structured course modules. Increased production capacity 2–3x by building repeatable post-production systems, automating assembly workflows, and standardizing naming, transcript, and delivery processes. Strong command of pacing, clarity, and scalable multimedia production under high-volume, deadline-driven environments.

Experience

National Prospect ID - Video Editor

02/2024 - Current

- Produced 1,000+ multi-sport athlete highlight reels for recruiting distribution.
- Scaled output to 70 videos per month during peak enrollment growth.
- Built structured post-production systems (templates, naming conventions, QC workflows) to sustain 2–3x capacity without added headcount.
- Implemented FastAPI translator layer to stabilize legacy platform workflows and reduce technical friction.
- Maintained consistent weekly delivery under sustained enrollment spikes.

NurseHub - Video Editor

07/2024 - 12/2025

- Restructured ~38 hours of curriculum; processed 180–200 lesson assets.
- Led 80% of migration via deterministic FFmpeg workflows.
- Increased course assembly throughput 2–3x; eliminated export errors.
- Standardized naming schema and consolidated transcripts across libraries.
- Replaced manual timelines with automated batch export pipelines.
- Established scalable folder architecture and encoding standards.

Home Shopping Network - Production Technician

St. Petersburg, USA

12/2020 - 02/2023

- Supported high-volume retail television content creation through on-set production, camera operation, lighting, and asset capture.
- Worked directly with models, products, and creative teams to produce demo, application, and before/after footage for broadcast and digital use.
- Ensured visual consistency, brand standards, and technical quality across large-scale product shoots.

WFLA News Channel 8 - Production Technician

Tampa, USA

01/2018 - 04/2019

- Live Broadcast Support: Assisted in live news broadcasts for a leading local station, supporting smooth and accurate on-air delivery.
- Floor Operations: Coordinated studio floor activity with producers and directors under live production constraints.
- Broadcast Technology: Operated graphics systems and robotic cameras to support reliable live output.

Freelance - Broadcast Production Assistant

Central Florida, USA

08/2014 - 01/2018

- Live Event Coverage: Supported camera, graphics, and technical operations for live sports broadcasts across collegiate and professional events.
- Technical Execution: Assisted with setup, operation, and breakdown of broadcast equipment to ensure reliable production workflows.
